Child and Adolescent Neuropsychology Postdoctoral Fellowship Rush NeuroBehavioral Center Skokie, IL

Rush NeuroBehavioral Center (RNBC) in Skokie, IL as part of Rush University Medical Center (RUMC) is offering full-time advanced training in psychological/neuropsychological assessment for one postdoctoral trainee. This is a 24-month fellowship from September 2023 through September 2025, with a stipend and hospital benefits.

The RNBC fellowship involves comprehensive assessment of children, adolescents, and young adults with developmental, attention, learning, autism spectrum, behavioral and/or psychiatric disorders. There are also opportunities to work with a medically diverse population that includes neuropsychological assessments of patients with mild traumatic brain injury, epilepsy, hydrocephalus, chromosomal disorders, extreme prematurity, and other neurological sequelae. The assessment battery is individualized to each individual to explore his/her strengths and weaknesses. The evaluation battery typically includes assessment related to intellectual functioning, academic achievement, various aspects of attention, memory, executive functioning, receptive and expressive language, and emotional and behavioral functioning. Fellows also obtain training in how to interface and collaborate with school systems, including conducting school observations and attending IEP meetings.

RNBC has a large training program for advanced practicum students who have an interest in neuropsychological assessment. The fellows will help supervisors with teaching standardized administration, scoring of assessments, interpretation of data, and integration of findings. The fellows will also aid in score checking student files and providing first round report edits to 4-5 students per month. There are weekly didactic seminars, grand rounds at RUMC, monthly journal club meetings, bi-monthly fact-finding exercises, and staff meetings that the fellow is encouraged to attend. There is also the option of testing as part of a multi-disciplinary team with our speech and language pathologist.

Basic Responsibilities:

- Complete 4-5 comprehensive assessment batteries per month
- Help to score check extern files and provide feedback to externs
- Provide first round edits on reports to 4-5 externs per month
- Participate in school IEP and 504 plan meetings with primary supervisor where appropriate
- Conduct school observations when needed
- Attend weekly didactic seminars that cover a variety of topics in assessment and neuropsychological issues.
- Present once per quarter on didactic topic and help to run group supervision of practicum students
- Attend weekly clinic meetings
- Opportunities to attend weekly grand rounds and monthly journal club meetings remotely through RUMC
- Participate in quarterly fact-finding exercises as preparation for pursuing board certification
- Receive weekly individual supervision with your primary supervisor
- Help maintain testing closet organization and ordering of assessments
- Research involvement is expected through collaboration with our research department at RNBC (a variety of projects to become involved with) and protected time is allotted each week towards these endeavors. Fellows are supported in presenting an abstract/poster presentation at a local or national conference their first year and contributing to a publication of at least one journal article their second year of fellowship.

Rush University System for Health (RUSH) is an academic health system whose mission is to improve the health of the individuals and the diverse communities it serves through the integration of outstanding patient care, education, research and community partnerships. students, is a health sciences university that comprises Rush Medical College, the College of Nursing, the College of Health Sciences and the Graduate College. Numerous national organizations have recognized Rush for the quality of care we provide, including U.S. News & World Report, which ranked Rush University Medical Center among the top 50 hospitals in five specialties in its 2019-2020 Best Hospitals issue. Rush University Medical Center has received Vizient's Quality Leadership Award, ranking first among 99 academic medical centers across the country. In 2019, Rush was designated a leader in LGBTQ health care equality by the Human Rights Campaign for the 10th consecutive year, and was one of only five hospitals from across the nation to be recognized by the American Hospital Association as an honoree for its annual Equity of Care Award.

Prior neuropsychological testing and clinical experience with children and families is required and candidates must possess excellent clinical and written communication skills. Interested candidates should send a cover letter, CV, three letters of reference, an unofficial transcript, and one sample de-identified neuropsychological report to:

Ashley Lambert, PsyD
Clinic Director
Ashley_Lambert@Rush.edu

Applications will be reviewed as they are received.
